Professional Summary

Software Development Engineer with experience building enterprise-scale financial systems, workflow automation platforms, REST APIs, and backend services using C#, .NET, SQL Server, React, and PostgreSQL. Strong foundation in DSA, OOP, DBMS, system design, Agile development, CI/CD pipelines, and scalable software engineering.

Experience

MRI Software

Software Development Engineer 1

May 2026 – Present

Vadodara, India

- Developed enterprise financial and workflow automation systems using C#, .NET Web API, SQL Server, and React.
- Optimized SQL queries and backend workflows improving system performance and operational efficiency.
- Built scalable REST APIs and contributed to production-ready enterprise application features.
- Worked on debugging, deployments, code reviews, and Agile-based development workflows.

MRI Software

Software Engineering Intern

Jan 2026 – May 2026

Vadodara, India

- Built CRM workflow automation modules using React, JavaScript, .NET, and PostgreSQL.
- Implemented reusable frontend components, SQL migration scripts, and backend optimizations.
- Collaborated on enterprise application debugging, deployments, and production support.

Shakti Infotech

Software Development & DevOps Intern

Oct 2024 – Apr 2025

Vadodara, India

- Contributed to enterprise cheque printing systems using ASP.NET MVC, SQL Server, and Azure DevOps.
- Managed CI/CD workflows, deployments, debugging, database operations, and backend modules.
- Worked on SQL procedures, enterprise workflows, and production support activities.

Projects

Enterprise Check Printing System | ASP.NET MVC, SQL Server, Azure DevOps

2025

- Developed backend transaction workflows and enterprise cheque printing modules for financial operations.
- Implemented SQL integrations, debugging solutions, deployment pipelines, and workflow optimizations.

CRM Workflow Automation Platform | React, ASP.NET MVC, PostgreSQL

2026

- Built scalable workflow automation modules with responsive frontend components and backend API integrations.
- Improved process efficiency through modular architecture and reusable enterprise components.

Fraud Transaction Detection System | Python, Flask, Scikit-learn

2024

- Developed ML-based fraud detection system achieving 97% accuracy using Random Forest Classifier.
- Integrated trained ML models with Flask APIs and built a web interface for prediction workflows.

Technical Skills

Languages: C, C++, C#, Java, Python, JavaScript, TypeScript, SQL

Frameworks & Technologies: .NET Framework, ASP.NET MVC, React, REST APIs, Flask

Databases: SQL Server, PostgreSQL, MySQL

Developer Tools: Azure DevOps, Git, GitHub, CI/CD, Power BI

Core Concepts: DSA, OOP, DBMS, SDLC, Agile Development, System Design

Education

Sardar Vallabhbhai Patel Institute of Technology

B.E. in Computer Engineering | CGPA: 8.46/10

2022 – 2026

Gujarat, India

Certifications

Supervised Machine Learning: Regression and Classification Andrew Ng

SAP Certified Application Associate: SAP Analytics Cloud
